Unusual Fire and Explosion Hazards: Complete personal protective equipment when entering confined areas where potential for exposure to vapors or products of combustion exists. High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers. Avoid the use of a stream of water to control fires since frothing can occur.

Section 4. Reactivity Hazard Data

Stability: Stable Unstable
Conditions to Avoid: Storage >100°F/38°C, exposure to light, loss of dissolved air, loss of polymerization inhibitors, contamination with incompatible materials
Incompatibility (Materials to Avoid): Polymerization initiators including peroxides, strong oxidizing agents, copper, copper alloys, carbonyl compounds, iron rust and strong bases.
Hazardous Decomposition: Fumes produced when heated to decomposition may include: carbon monoxide, carbon dioxide
Hazardous Polymerization: May Occur Will Not Occur

Section 5. Health Hazard Data**Emergency Overview:**

- May be slightly toxic.
- May cause moderate skin injury (reddening & swelling).
- May cause chemical burn in eye.
- Suspect respiratory tract irritation hazard.

Primary Routes of Entry: No specific information is available for this product. Although, this product poses only slight irritation concern with all routes of entry.

Carcinogen Listed In:

NTP IARC Monograph OSHA Not Listed

Health Hazards:
 Eye Contact: No specific information available. Contains materials that are essentially nonirritating, but contact may cause slight transient irritation.
 Skin Contact: No specific information available. Contains materials that may cause moderate skin injury (reddening and swelling) and/or sensitization. Prolonged contact may cause blister formation (burns). Since irritation may not occur immediately, contact can go unnoticed.
 Inhalation: No specific information available. Low volatility makes vapor inhalation unlikely. Aerosol can be irritating.
 Ingestion: No specific information available. Contains materials that may be practically

nontoxic.

Sub-Chronic Effects: No specific information available. Limited tests showed no evidence of teratogenicity in animals. A lifetime skin painting study with mice showed no evidence of carcinogenicity.

Emergency First Aid Procedures:

Eye Contact: Flush with plenty of water for 15 minutes and retract eyelids often. Seek medical attention immediately.

Skin Contact: Remove contaminated clothing and wash contact area with soap and water for 15 minutes.

Inhalation: In case of exposure to a high concentration of vapor or mist, remove person to fresh air. If breathing has stopped, administer artificial respiration and seek medical attention.

Ingestion: If appreciable quantities are swallowed, seek medical attention.

Section 6. Control and Protective Measures

Engineering Controls:

Local exhaust recommended to control exposure which may result from operations generating aerosols and hot operations generating vapors.

General:

To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with OSHA PPE Standard (29 CFR 1910.132), or European Standard EN166 be conducted before using this product. Provide eye wash stations and safety showers. Wear impervious clothing to prevent ANY contact with this product, such as gloves, aprons, boots, or whole body suit. Nitrile rubber is better than PVC.

Respiratory Protections (Specific Type):

A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain limited circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by nuisance level organic vapor dust masks can be used, however the use of the respirator is limited. Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Eye/Face Protection: Wear chemical splash goggles.

Skin Protection: Wear impervious gloves (Neoprene).

Section 7. Precautions for Safe Handling and Use / Leak Procedures

Steps to be Taken if Material is Spilled or Released:

Evacuate area and eliminate all possible sources of ignition. Use self-contained breathing apparatus and protective clothing. Dike and absorb with inert materials (sand, soda, ash, vermiculite, etc.) and then transfer to proper containers for disposal, using non-sparking tools. Keep spills out of sewers and open bodies of water. Remove saturated clothing and wash affected areas with soap

and water.

Waste Disposal Methods:

Dispose of in accordance with your local, state, and federal regulations.

Handling:

Avoid contact with skin and eyes. Avoid breathing vapor. Keep container closed when not in use. Avoid prolonged exposure to light. Remove all contaminated clothing, shoes, belts and other leather goods immediately. Incinerate leather goods (including shoes). Wash contaminated clothing thoroughly before reuse. Wash skin thoroughly with soap and water after handling. Solvents should not be used to clean skin because of increased penetration potential.

Storage:

Most acrylic monomers have low viscosities, thus only needing room temperature conditions to facilitate proper pouring techniques. However, viscous type gels such as these may require heating to facilitate proper pouring techniques. To ensure that this happens, product may be heated to 60°C/140°F. Do not overheat, this may compromise product effectiveness and should be avoided. Refrain from multiple reheatings of product, this will also diminishing the quality of the product. Product is extremely light sensitive. If exposed to natural light or UV light, material will cure very quickly. Store in a cool, dry place, away from heat and all types of light. Store at temperatures below 100°F/38°C but above the product's freezing point. If no freezing point is given, keep above 32°F/0°C at all times.

Explosion Hazard:

High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers.
